A bustling city centre

Ideally situated near the Town Hall and the railway station, Appart'City Cap Affaires® Béziers is right in the heart of the business and festive life of the capital city of the Languedoc winegrowing area.

An excellent position for a variety of business sectors

At the centre of a motorway network (A9, A61, A75), between Marseille, Barcelona and Toulouse, and connecting northern Europe with Spain and Portugal, Béziers has confirmed its position as a front rank economic centre. Mechanical engineering and metallurgy have been major areas of expertise for many years, illustrated by FE Industrie and Altrad. At the crossroads of the major trans-European routes, Béziers is an important logistical centre. The importance of winegrowing is supporting the growth of the packaging sector (Saint-Gobain, BSN...). With its coastline and the Canal du Midi, this area is developing a high quality tourist industry for a diversified customer base. Other specialist competencies: renewable energy with wind and solar power.

An historic city, with beaches close by!

Set between the Mediterranean sea and the Pyrenees mountains, with vines and historic sites, Béziers offers an exceptional setting and quality of life for work and relaxation.

After a day's work in one of its many business parks or at the Conference Centre, recharge your batteries at Valras-Plage, the Cap d'Agde or in the beautiful countryside. The city has a number of interesting sites to explore (the Roman Amphitheatre and the Cathedral...). And all in a festive atmosphere, reaching new heights at rugby matches and festivals.

And its sunny climate can equally be enjoyed through its food and wine, matured on the neighbouring hillsides.

Comfort and quality

The residence Appart'City Cap Affaires® Béziers has 162 apartments, from studio's to 2 beds, over 5 levels.
